

Beautifully Boho Ring Holder

Duncan®

Create a Boho-inspired ring holder with vibrant florals and 3D effects from Duncan® French Dimensions™.

Instructions:

1. Use a damp sponge to wipe the bisque clean from any dust or debris.
2. Use the pencil to draw a flower design with seven pedals around the ring holder. Then create two or three gradating outlines around the petals to reach the edge as shown.
3. Use the No. 4 Round and three coats of Bright Purple, Neon Orange and Green Apple to fill in the different sections of the petals.

4. Accent the edges with Neon Orange and the ring stand and base with Green Apple.

5. Use the Black Licorice French Dimensions to outline the sections of the flower, and use French Really Red to add accent lines around the edge. Let dry completely.

6. Use the fan brush to pat on a layer of Pure Brilliance, let dry, then add one more coat.

7. Stilt and fire to cone 06.
