

## Light Up the Night Glitter Jars

Even if you don't have the chance to play in the snow, you can still enjoy some wintery cheer with these shimmery canning jar luminaries! Add a touch of traditional flair with silver and gold glitters on the insides and a dimensional paint snowflake motif on the outsides, then illuminate your sparkly creations with a tea light candle for elegant ambiance where ever you place them.

1. Print out pattern, trim around pattern and tape to inside of jar to use as a guide.
2. Trace over pattern on front of jar with gold and silver dimensional paint. Leave jar lying flat with painted side up until dry.
3. Brush Collage Pauge inside jar and pour glitter inside while glue is still wet. Let dry and pour out excess glitter.
4. Place glass votive inside jar. Add tea light to complete!
