

Spooky Eyeball Wreath

Looking for a super spooky DIY that will have all the neighbors turning their head? Make this fun, spooky wreath that will greet your trick-or-treaters and add a little fright to your front door!

AN **LOVE TO CREATE.COM** EXCLUSIVE FROM OUR
Design Studio

What you need:

- foam wreath form
- [Tulip Fabric Spray Paint](#) (neon colors)
- [Aleene's Fast Grab Tacky Glue](#)
- Black satin ribbon (3 yards)
- 60-120 ping pong balls based on your wreath form size
 - Googly eyes
 - Paper towels
- Surface cover or tablecloth (to prevent mess)
- Elbow grease (haha)

Wrap the satin ribbon around the wreath form slightly overlapping the ribbon as you go.
Secure with [Aleene's Fast Grab Glue](#).

Lay down paper towels and spray your ping pong balls with the [fabric spray paint](#).
We sprayed ours with varying colors of orange, pink, and green!

Once dry, apply googly eyes to top with the [Fast Grab Glue](#).

Add glue to back of ping pong ball and position on wreath. Add ping pong balls to the tops and sides, randomly mixing your colored balls. The more ping pong balls you glue, the more impactful and abundant your wreath will be!

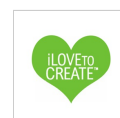

Eyeball Wreath

We love how this wreath turned out! Here's a condensed version of our project for you to pin or share on your favorite social media sites!

Happy Halloween. Wha ha ha!!!!
