

Kiss Me Sweatshirt DIY

I have made so many Heart sweatshirts using glitter, paint, iron on glitter sheets. I wanted something just a little different to wear on Valentine's Day and beyond. I was traveling though [Pinterest](#) and saw a Lip Sweatshirt and I thought it would be a perfect project for Valentine's Day.<3

Anne Hollabaugh

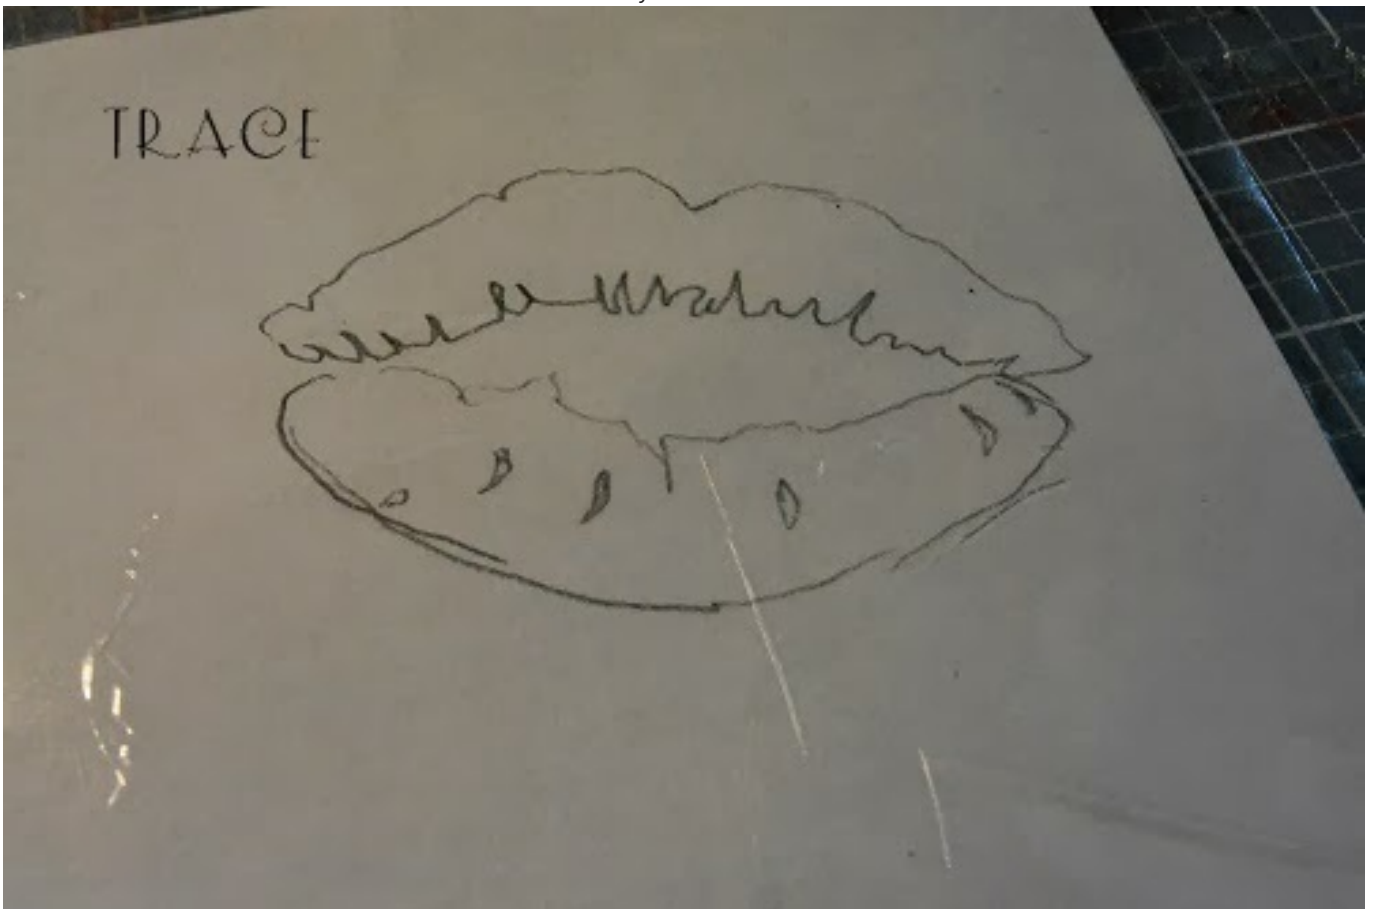

Things you Need

- Sweatshirt
- [Tulip Fabric Markers](#)
- Scissors
- Lip Stencil
- X-acto knife
- Clear Contact paper.

Cut off your collar.

Trace out a stencil of lips.
Cover the paper with clear contact paper.

Cut it out using your x-acto knife

Place the stencil on your sweat shirt,
using your Tulip Markers draw around the stencil,
working from the outside edge toward the inside.
Make the edges a little darker, that will give you a 3D effect.

Remove your stencil and repeat all over your sweatshirt.

Wait 48 hours and then you can wash in cold water, I would hang dry.

Wear with your favorite jeans and heels.

Have a fantastic Tuesday,
and a kissable Valentine's Day.

Lots of <3,
Anne
