

Bedazzled Puff Paint Ornaments

Wahoo! It's that fun time of year where we decorate ornaments, bake yummy goodies and shop our brains away. But, if you are like me then you just bake and decorate because I am all about homemade things. The only time I buy something is if I truly can't "make" it! How funny is that. I wanted to show you today how to bedazzle some ornaments and add a tad bit of color to them. They almost look soft and

delicate with a twist of FUN!

Let's go make some Bedazzled Puff Paint Christmas Ornaments!

AN **I LOVE TO CREATE.COM** EXCLUSIVE BY

Jade Harrington

What you'll need:

- * Tulip Puff Paint
- *Aleene's Jewelry and Metal Glue
- *Glue Glun
- *Christmas Ornaments, Clear
- *Clear Jewels

The first thing you will do is clean off your ornament, I used windex.

Start by glueing your jewels on the ornament. I put a small dot of glue then gently placed the jewel down.
Let them dry completely before moving on to the next step.

When you are done grab your puff paint bottle and lightly squeeze some paint around each jewel. I wanted each ball to have one color but you could add layers of rings around each color if you want.
