I have seen Star shirts and sweatshirts everywhere and
I just love them so I decided to make one for myself of course
I had to add a little bit of sparkle to it.

Cut your collar off to make your sweatshirt
the off the shoulder look and cut the sleeves the length you want.

Place your stencil where you want your stars to be
and paint with your silver paint.

I then sponged on a layer of glue and covered it with glitter.
Let that sit for about 5-10 minutes and then move to your next star.

Let all of that dry about 4-6 hours.

Once that is dry shake off the excess glitter and then put on another layer of glue on top of the star to seal the glitter in.

Now you could trim the collar with some fun sequin trim to dress it up just hand sew it on, that might take you about an hour.

or if you hate to sew you could make a decorative collar out of
[Tulips bead in a bottle.](#)
be creative.

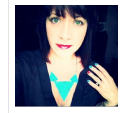

Then have fun wearing it out with a pair of cute jeans and some black pumps.

Have a wonderful week.

Lots of love,
Anne
