

Scribbles Paint Tennis Shoes DIY

Now that it's officially spring, these shoes are sure to give you a pep in your step! Getting a cool, custom look only takes a few minutes and you don't have to have advanced drawing skills to create a fab pair! All you have to know how to do is doodle some lines!!

For this project, you'll need:

- A pair of white canvas tennis shoes
- Six pack of Scribbles 3D Fabric Paint in Neons

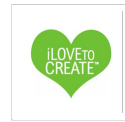

Using the pack of Scribbles Neon Colors, you'll get a great look no matter your design. For this project, I simply squeeze the paint on in various sizes and squiggles and let it fully dry!

I did chevron stripes, lines and bands of colors along with a few cute scallop designs. I was very careful to hold the shoe by the tongue while I doodled all over the shoe so that I wouldn't get my finger or hand in the paint. After 2-3 hours of drying time, they were ready to wear!

I decided to make both pairs different, but you could easily make them matching! Since I like things a little bit random, I wanted each shoe to have it's own look! How would you decorate your shoe using the Scribbles 3D Fabric Paint?
