

Tic Tac Heart T-shirt

Any way you look at it, you'll love this tee! Place your stencil and then spray away to your heart's content! Either paint your hearts solid or add an ombré effect by overlapping your paints.

1. Create stencil using freezer paper or heavy cardstock. Insert the cardboard piece between the front and back of the shirt then center the stencil on the shirt and tape it down securely. If using freezer paper, iron waxy side down on shirt.
2. Using plastic or cardboard, cover any areas of the shirt around the stencil to prevent overspray on unwanted areas.
3. Using Pink, spray the three hearts in the top left corner.
4. Use Purple to spray the three hearts in the middle.
5. Use Purple to spray the three hearts in the bottom right corner.
6. You can allow some color overlap on the hearts while spraying to create a subtle ombré effect.
7. Allow the shirt to dry for 24 hours before washing or wearing.

What you need:

Tulip ColorShot Instant Fabric Color

ColorShot Pink (33596)

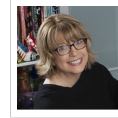

ColorShot Neon Blue (33602)

ColorShot Purple (33604)

Miscellaneous:

- T-shirt
- Heart stencil
- Piece of cardboard
- Masking tape
