

## Sweetly Striped Festival Body Art

Make sure you're extra festive during your next festival with bright neon face paint and twinkling crystals from Tulip® Body Art®! Simple stripes and hints of sparkle make for sweet accents to any festival look.

1. Make sure skin is clean and dry. Note: For best results, do not use lotion on the area where paint will be applied.
2. If using finger to apply, squeeze a small amount of Neon Purple face paint onto finger, then swipe across cheekbones to create stripes. If using a paintbrush, squeeze a small amount on palette and brush stripes onto cheekbones. Let dry.
3. Use applicator wand in Skin Adhesive to dot glue onto temples, framing the eyes. Press a crystal into each glue dot and let dry. Tip: Use tweezers to help apply crystals.
4. Remove crystals with rubbing alcohol and a cotton swab. Paint can be removed with soap and water or rubbing alcohol.

### What you need:

#### Tulip® Body Art® Liquid Paint

Black Light Purple 0.5 oz.

(34275)
