TULIP
COLOR SHOT
INSTANT FABRIC COLOR

Tip: Before spraying, iron the freezer paper polka dots wax side down to create a temporary seal on your shirt; tweezers will help make it easier to remove them after spraying. Spray one light coat of color over your shirt - light coats are always better - and then let dry. Repeat with additional coats of color until you are happy with the coverage.

After your shirt is dry, remove the dots and enjoy! So easy to make your own DIY polka dot tee!

OMG so cute! Now we're daydreaming about bubblegum, cotton candy and cupcakes ...
