

4 WAYS TO PRIMP YOUR PUMPS

We gave our designers a challenge this month in honor of New Year's! They were asked to turn a plain pair of black pumps into a glitzy pair using just a few of our favorite Tulip products! We love how each black pump turned out so different!

AN **LOVETOCREATE.COM** EXCLUSIVE FROM OUR
Design Studio

Each designer was given an assortment of [Tulip 3D Paints](#) in gold & silver, a 5-pack of [Tulip Fashion Glitter](#), [Tulip Fashion Glitter Bond](#), [Tulip Glam-it-Up Iron-On Crystals](#) in red and crystal, and a [Aleene's Fabric Fusion](#) pen.

Suzie Shinseki decided to add a dash of New Year's fireworks using the **Tulip 3D paint** and **Tulip Glam-it-up Iron-on crystals**! These turned out so artful and were the perfect way to add a little sparkle to the black pumps!

Erika Lindquist added a geometric touch to her shoes using tape along with the **Tulip Fashion Glitter and Glitter Bond**! Super cool and they go right along with the geometric trend we saw in DIY in 2013! See the full tutorial for these shoes here: [Geometric Glitter Heels DIY](#).

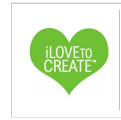

Pattie Wilkinson a.k.a. Pattiewack made these cool leopard-inspired pumps using the squeezable **Tulip Fashion Glitter Bond** and **Fashion Glitter**! They turned out so striking and cool! Get the full tutorial here: [Leopard Print Glitter Heels](#)

These scalloped heels from Lauren Moritz are understated, but totally cool! Plain in the front, but they definitely make a WOW statement in the back using the **Tulip Fashion Glitter**. See the full tutorial here: [Glitter Scallop Heels DIY](#).

Which pair is your favorite?
