Here's a cool sparkly pair of kicks to enjoy for New Year's that I literally whipped up in under 30 minutes! They are such a cool way to make a statement with that little black dress at your party and what girl doesn't love a little bling to ring in the new year?

AN **I LOVE TO CREATE.COM** EXCLUSIVE BY

Pattie Wilkinson

- Tulip Fashion Glitter in holographic silver
- Tulip Fashion Glitter Bond
 - Black heels
- Cardstock or newspaper

Make a zebra-like shape on the shoe, squeezing from the tip of the Tulip Fashion Bond.

Repeat the pattern all over the shoe!

Pour the glitter over the glued areas. It instantly looks amazing!

Now tap off any excess onto your cardstock. You can always roll up the cardstock and pour the unused glitter back into the bottle!

Whohoo! A pair of sparkly kicks to rock out in for New Year's! They turned out looking half leopard/half houndstooth! I love them.

You can always spray on a little Aleene's Spray Acrylic Sealer to help further protect the glitter from flaking off!

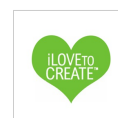

What you need:

Tulip® Fashion Glitter® Bond

Fashion Glitter Bond 1 oz.
