I'm here at the [iLoveToCreate](http://iLoveToCreate.com) headquarters in the design studio and I came across a huge bin of tie-dye cast-off shirts. My first thought - gift bags! The best thing about these is that you don't even need to sew - we're using [Aleene's® Fabric Fusion® Peel & Stick Tape™](http://Aleene.com)!

AN [iLOVEtOCREATE.COM](http://iLoveToCreate.com) EXCLUSIVE BY

Kathy Cano-Murillo

SUPPLIES:

T-shirt (I used tie-dye shirts)

[Aleene's® Fabric Fusion® Peel & Stick Tape™](#)

Scissors

Ribbon

Optional [Tulip Glitter Bond](#) and [Tulip Glitter](#)

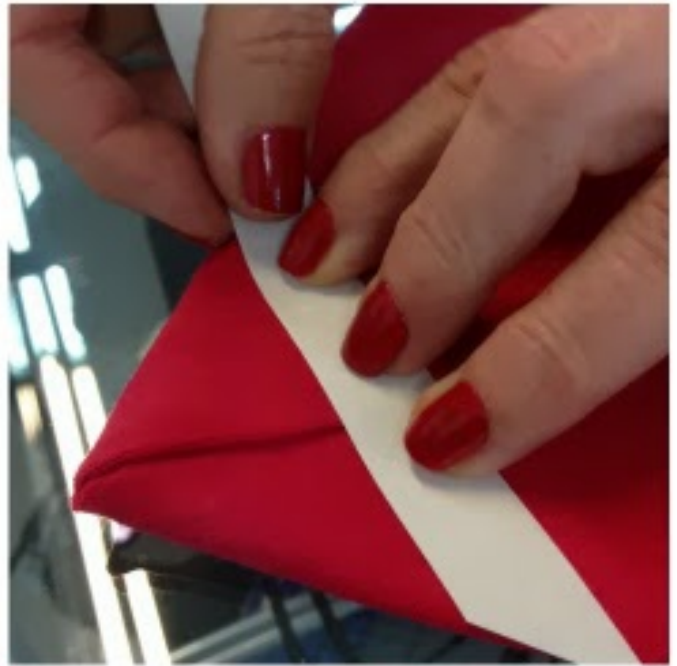

Determine what size you want your bag to be - keeping in mind what size of shirt you have. Cut along the bottom, cut off the sleeves.
Turn your shirt right side in. Time to seal the bottom!

We'll need to reinforce the bottom - first you'll add a strip of the tape inside the bottom layer and press the top layer. Smooth out any bumps with your fingers. Next, add another strip along the top layer and fold it over. Press so it is bonded. Turn your shirt inside out so the front is showing.

How To: Make a gusset using Fabric Fusion Permanent Tape

To give your bag a professional look, make some gussets! This will give your bag a flat bottom so it can hold items in a more balanced fashion. Pull out one corner at the bottom of the bag. Add a strip of tape. DO NOT remove the tape backing yet! Put your hand inside the bag and press the pointed corner inside to create a moth. Line up the ends, then pull off the backing of the tape and press in place. Repeat for the other side.

Decorate the front of your bag as desired!

Cut notches in your bag around the top, leave room to "poof" the top. Insert a long strand of ribbon - long enough for you tie a big bow.
