

## 3 Ways to Add Flair to Your Plastic Flatware

When it comes to my Thanksgiving Day, my family visits at least three houses. And each house has at least 20-50 people chowing down on turkey and pumpkin pie. Real silverware is out of the question! But here is a way to still look classy with all those peeps to serve - pick up a set of plastic silver flatware and dip them in [Tulip Soft Paint](#). Here are three ways!

**What you need:**

[Tulip Soft Paint in gold metallic, gold glitter](#)

[Tulip Fashion Glitter](#)

[Collage Pauge Instant Decoupage Instant Glossy Sealer](#)

Plastic cups

Plastic flatware

Paper towels

Empty the bottle of paint into the cup.

Take one piece of the flatware and dip the end in the paint and tap until all the excess has dripped.

Rset on top of the cups to air dry.

Add glitter over the wet paint BUT don't forget to let dry, then dip in a cup of [Collage Pauge](#) to seal the glitter so it won't flake, same with the other pieces. The sealer will make it smooth, shiny, and non-sticky.

And there you go - super stylish plastic flatware that doesn't take long to make!

More ideas:

- Coat the bottoms a different color.
- Dip in one color, let dry, then dip in another.
- Use a variety of colors for a festive look!
- Don't forget to seal so the paint won't be sticky.

Happy Thanksgiving!!

What you need:

Tulip® Fabric Paints & Markers

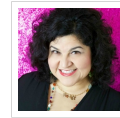

Tulip® Soft® Fabric Paint
